Lane and family, of near Bethel; Mrs. Moore, who goes to Houston. These are good people and a valuable acquisition to the citizenship of the Lone Star State.

WANT A NIGHT OPERATOR AT PRESTON.—When the C. & O. railway began its policy of economy to meet the hard times last year it dispensed with a night operator at Preston and the traveling public has since been very inconvenienced. The east-bound express can be stopped only by flagging if there is not a night operator on duty. The company has reinstated night operators at other points, and surely Preston is important enough to justify a night agent again.

ENTERTAINMENT.—Everybody, come and hear "The Village Singers." Saturday night, Dec. 12, at the City School Chapel.

This is the first of our series of lectures. The Committee have secured some of the best talent in America. We know Owingsville people are wide awake in educational affairs, and will not allow the committee to stand a loss on an up-to-date educational and refined lecture course. "The Village Singers" come highly recommended, and we are sure you will not be disappointed. Get you a season ticket.

JOHNSON-ESTILL.—Owen Johnson, son of Geo. P. Johnson, of near Sharpsburg, and Miss Estill, daughter of Thos. J. Estill, of near Colfax, Fleming county, engaged to be married, the past week and were united in marriage at the residence of D. S. Martin by Rev. W. L. Reid. The bride is an attractive school teacher and a niece of D. S. Estill, of this town. Mr. Johnson is a young farmer of character and high standing in the community. They are heartily congratulated by many friends.

WE STAND CORRECTED.—Dr. H. Morgan, of Sherburne, writes that the statement published in THE OUTLOOK that his brother Harry Morgan was placed in the Flemingsburg jail was untrue. That his brother was in prison under \$200 instead of \$500 bond and his examining trial.

CHRISTMAS STAMP OF THE RED CROSS.—In 1904 in London the government issued a Christmas stamp, with the King's head and the word "Jill," the same as our "Yule." It was not good for postage, only as a "sticker" for Christmas letters, post-cards and packages. The proceeds from it were to go toward the building a tuberculosis hospital for little children. It succeeded beyond all expectation, four million stamps sold at an acre, or half-cent apiece. Denmark has continued it since to maintain tuberculosis work, and the sale of the building of Hans Christian Andersen has doubled each year.

America needs such a stamp, but her postoffice officials cannot issue or handle it under the present postal laws; and a special act of Congress would be necessary.

Jacob Redd, himself a lawyer, wrote an eloquent article published in the Outlook of July 6, 1907, urging government action in the matter, but there were too many hopeless to try, but at this juncture the Red Cross, which exists for just such emergencies, took it up.

The Red Cross is a great national organization, with branches in each State, formed to act in crises and to render aid in war, pestilence and famine. Tuberculosis, the great White Plague, is the most terrible pestilence in the known world, claiming one death out of every seven. The Red Cross has taken up tuberculosis work, therefore, as part of its "peace activity." The present time is one of crisis in the war against consumption. Each State needs education and awakening in the subject, and money for the work. The Red Cross, therefore, with the approval of the postal authorities, took up the Christmas stamp last Christmas, and tried it in one State.

This was the little State of Delaware—very small, very conservative, not given to enthusiasm, and having only a few sticks in the wooden meadow near Wilmington as a tuberculosis hospital. The State as a whole was uninterested in the subject, yet the stamp, put on the subject, amazed every one by its sensational record. Fifty thousand had been printed to sell at one cent apiece. They went in a week, and then the stamp got into Philadelphia, where the Pennsylvania Red Cross welcomed it and backed it, and the North American gave it the endorsement. The Delaware schools sold it, the Delaware Women's Clubs took it up, the newspapers gave columns to it, the dentists, stores, banks, drug stores and hotels sold it. It was sold in the corridors of the Wilmington Federal building, by permission of the government, though not the postoffice. The presses in the last few days before Christmas ran day and night to supply the demand. People used the stamps on packages and letters, and business firms for correspondence. Nearly four hundred thousand were sold, and nearly three thousand dollars cleared from the small, unobtrusive penny stamp.

With this money the Delaware Red Cross first brought an educational anti-tuberculosis exhibit to Delaware, which was visited by twenty thousand people in ten days. The clubs, granges, city boards, teachers, clergymen, labor unions, state officials, were all specially invited on special days, and the whole State was waked up. A nurse was sent to the Sanitarium, and a free dispensary supplied with milk and eggs, drugs, and a visiting nurse for the consumptive poor. This has gone on all year. One thousand dollars has been set aside as a nucleus toward building a hospital at Delaware, and people are so interested in tuberculosis work, and all this was done in ten days by a penny stamp.

The National Red Cross at this year, has decided to issue the Christmas Stamp in every State. A beautiful stamp has been especially designed by Howard Chandler Christy, the famous artist. It bears a wreath of holly, and "Merry Christmas" and "Happy New Year." It will be on sale at the Red Cross headquarters Washington, D. C., and in each State, and the Christmas Stamp is not for postage. It will not carry any kind of mail, but any kind of

mail will carry it. Each one who uses a holiday stamp will help to "stamp out the White Plague." It has been printed this time by the million to supply the demand, so any quantity can be ordered, but cash must be sent with each order, this time having been allowed last year with success. Nobody makes any profit on the Christmas Stamp, but it was found that Christmas that every one was glad to help it along on these terms. For an order of one stamp or a thousand the price is the same, except in the latter case, which add the cost of the binding. Just as the government does. The proceeds in each State go toward tuberculosis work in that State.

During the run of the stamp last year Jacob Reis wrote a congratulatory letter to the Delaware Red Cross, and Governor Stuart of Pennsylvania, Secretary Root and Secretary Taft all telegraphed their approval and good wishes. This year the stamp goes forward to a wider usefulness. Its value is twofold. It educates and arouses. It gives each one a chance to contribute, if only a penny, to the war against the White Plague, and provides a fund for needed work. If little Delaware made it, success in any other State, north or south, can do so. The National Red Cross brings this Christmas Stamp to the whole nation this year. If America in two years, women and child buys but one, sixty-five millions will be sold, and tuberculosis work from Maine to California will be reinforced and aided.

When Denmark has succeeded, can America fail?

E. L. & A. T. Byron, of Owingsville, will handle the Christmas Stamp.

REUBEN COPPER'S DEATH.—Reuben Copper, aged about 50 years, died at his home in Ore Mines neighborhood Wednesday, Dec. 2, of pneumonia, from which he had been confined to his home for two years.

Decayed was a son of "General" Jacob Copper and a brother of Mrs. Mary "Aunt" Copper. He was born in the Ore Mines neighborhood of Pendleton county, John R., of Olympia, Henry (Dunk) and J. A. Monahan (Duke), of near Middle State bridge.

James Ewing's company in the Mexican war and in the Seventh Ky. Cavalry, U. S. A., in the Civil war. He drew a pension for his services in the army.

He was a very quiet, civil and unassuming man, but one of good intelligence and life-long industry. He and his wife reared a large family: Samuel, deceased; Mrs. Caroline, deceased; Robert, deceased; John, of Ore Mines; Mrs. Grizzell, of near Clear Creek; Mrs. Thos. Young, of Vale; Christopher, of West Virginia, and Mary, deceased. Mrs. Copper survives.

J. M. BROWN DEAD.—James M. Brown, aged 65 years, proprietor of the Brown House, and a prominent citizen, died at Sharpsburg Monday of consumption. IT SPOOLS THE FISHER.—Riding across the county one day Dr. Blank noticed an old negro who had been quiet a while perched motionless on a little bridge fishing silently in the stream beneath. For some time he watched him from a distance, but finally, overcome by the old fellow's patience, he rode up and accosted him.

"Hello, Wash! What are you doing there?"

"Fishing, sah," came the reply. "Not getting many, are you?"

"Well, it seems to me you'd get tired fishing so long without a bite."

"Well, that's funny; why don't you want a bite, Wash?"

"So you have asked her three times to marry you, eh?"

"Yes, and got turned down cold each time."

"Don't be discouraged. Ask her again."

"Not much. I know when I've got enough. I'm no Bryan."

No man has ever acknowledged that he was the victim of woman's lecherous privilege, and no woman ever cared to boast of her success in that line.

CONGRESS met in regular session Monday and the country will be saved some more.

UNCLE JO CANNON has tamed down sufficiently to eat out of a tariff-room hand, but there are doubts that it will continue after he is re-elected Speaker.

PRESIDENT ROOSEVELT has put under Civil Service rules all the fourth-class postmasters east of the Mississippi river and north of the Ohio and Mason & Dixon's line, which is hard on the Congressmen.

GEN. SIMON has pulled off a successful revolution, the negro republic of Hayti and probably will make himself President. Our colored friends enjoy a revolution just the same as white folks.

A SQUADRON of Dutch warships is parading along the coast of Venezuela as if to dare the countrymen of the fiery Castro to come on with their fireworks. Meanwhile Castro is in Europe and is said to have \$60,000,000 deposit there. There is a belief that he will not come back.

CHAMP CLARK, of Missouri, a Kentuckian by birth, has been chosen to lead the Democratic forces in the national House of Representatives, succeeding John Sharp Williams, who is a native son of the state.

PRESIDENT ROOSEVELT has formally chosen his representative in his Annals Club Editor Laffan in the New York Sun, and Editor Smith, of the Indianapolis News. Laffan came back with his characteristic polished vituperation. Such jawing matches are not only discreditable to all parties engaged in them, but are morally harmful in a high degree.

THE SUFFRAGETTES, of London, England, are a national scandal. At a meeting at which the Chancellor of the Exchequer was announcing the government's intentions in regard to woman's suffrage the suffragettes, chained to seats and some in the garb they recently wore in prison, started a rough house, lashing the police with whips. It took 350 policemen to quell the mob.

Mrs. Richard Evans is visiting her brother-in-law Henry Evans, at Sharpburg, this week.

FOOTBALL'S ALL THINGS. The ribbon girls at all the county fairs are busy making up football color to rosettes and steamers they have lately thought of. The colors are black and white, gray or brown.

PECULIARITY OF MISTLETOE. An interesting item regarding the mistletoe is that it is the only plant whose roots refuse to shoot in the ground, a peculiarity possessed by no other parasite. It is found on the fir, the lime and the apple tree, as well as on the oak.

His OFFENSES. "Brothers and sisters," began the old parson, "I shall not choose any particular time this morning, but shall preach from where I open the book, and, no matter where, I shall find the wrath that is to come upon the wicked, who let out what they have shrouled off this mortal coil. It is now open, and."

Here the parson was interrupted by a deacon, who had been asleep, and, hearing the word "open, cut and shuffle," forgot himself and cried out: "It's your turn, who do you open on?"

The surprise of the good man in the pulpit was great, but the deacon continued when the reply came: "It is open on Kings."

Sluttrack the man who talks much and says little. Many a man who thinks he's right doesn't go ahead.

The more money you have the more you can get with it. It's easier to talk philosophy than it is to live up to it.

When a man brags about himself it's a sign that others merely tolerate him.

It is easier to lead a man to drink than it is to drive him away from it.

When a man claims to be sanctified, it means that he is sorry his friends are not as good as he is.

The wise man profits by the experiences of others—and at the same time mixes in a little originality.

STROG WATER. Mr. Edison was once asked to send a photographic cylinder to a fair. He sent this reply:

"You ask me to send a photographic cylinder and to save a few words to the audience. I do not think the audience would care to have any interest in dry scientific subjects, but perhaps they might be interested in a little story that I can send you on a photographic cylinder the other day from San Francisco."

In the year 1879 a man from Missouri came to California with a chronic liver complaint. He searched all over the coast for a mineral spring to cure the ailment, but he found none.

In the San Joaquin Valley, a spring the waters of which almost instantly cured him, he found. He started a sanitarium, and people all over the world came and were quickly cured. Last year this man died, and his estate has been the action of the water that, before they could bury him, they had to take his liver out and kill it with a club.

CLEVELAND'S WAY. Among the anecdotes illustrative of Mr. Cleveland's refusal to give any sort of pledges in an argument, is the incident in the campaign of 1892, and is printed in the New York Evening Post.

A literary friend of Mr. Cleveland brought together, as if by chance, the Democratic nominee and a prominent Irish-American contractor who was supposed to have much influence with the converted Irish vote.

The interview was so managed that the two men were left alone in the literary man's library for an hour. At the end of that time they were discovered weaving stories with each other like old friends.

"Well, what do you think of him?" asked the host of the contractor, after Mr. Cleveland had left.

"Sure," replied the contractor, beaming all over, "he's the greatest man I ever saw. He's a fine man, a grand man. He wouldn't promise to do what I think I asked him."

NOT WORTH THE OFFER. "I was standing out in front one night," said a theatrical manager, "and a ragged little urchin with a dog under his arm was begging for a dog under my arm."

"The dog was a yellow cur of the mangiest variety I had ever seen."

"Are you the manager of the show?" asked the boy.

"I told him I was."

"Well," said the boy, "I want to see the show, but I ain't got no money. I'll give you this dog if you let me in."

"I looked at the boy, then at the dog and my heart melted. You can go in," I said, "but never let that dog out of your sight. Take the dog in with you."

The lad went in with the cur under his arm. After the performance I was standing in front and happened to see the lad come out.

"Well, how did you like the show?" I inquired.

"Oh, pretty well," he said, "but I'm awful glad I didn't give you the dog."
